Sacramento artist D.K. Osorio announced today that her works are now available on the on-demand print site Imagekind.com, which features over 50,000 artists from around the world. Featured are five floral paintings, as well as two of her latest original oils on canvas, "Ciencia," and "Sea Dragon."

The Five Floral Collection consists of small paintings created in 2008 and 2009, and are perfect for framing as prints, or as personalized greeting cards you can create on the website.

"Ciencia" is an imaginative rendering in shades of green of L'Hemisfèric – one of the distinctive buildings comprising the City of Arts and Sciences complex in Valencia, Spain. "Sea Dragon," her latest finished work, evokes the worlds of both nature and fantasy, with a larger-than-life depiction of an undersea creature on a bold red background.

According to their website, "Imagekind (www.imagekind.com) is the world's fastest-growing art site offering over 750,000 high-quality fine art images for sale. Imagekind gives consumers limitless options to purchase museum-quality framed and poster art from over 50,000 domestic and international emerging and established artists."
